Lillian Barrett Hughes Wyatt

+1-540-820-6289 | lbhwyatt@caltech.edu | lillianhugheswyatt.github.io | lillian-hughes-wyatt
California Institute of Technology, 1200 East California Blvd. MC 104-44, Pasadena, CA 91125 U.S.A.

Research Vision

Creating quantum defects and heterostructures that enable robust coherence and controlled interactions by integrating precision synthesis, characterization, and fabrication with quantum measurements.

Professional Experience

- **California Institute of Technology** — *Nov. 2025 - Present*
  AWS Quantum Postdoctoral Scholar — Pasadena, CA, U.S.A.
  Advisor: Professor Austin Minnich
- **National Institute for Materials Science** — *Sep. 2024 - Nov. 2024*
  Graduate Student Intern — Tsukuba, Ibaraki, Japan
  Supervisor: Dr. TERAJI Tokuyuki

Education

- **University of California Santa Barbara** — *Sep. 2019 - Sep. 2025*
  Ph.D. in Materials — Santa Barbara, CA, U.S.A.
  Advisors: Professor Ania C. Bleszynski Jayich and Professor Kunal Mukherjee (Stanford)
- **University of Richmond** — *Aug. 2015 - May 2019*
  B.S. in Interdisciplinary Physics, concentration in Chemistry — Richmond, VA, U.S.A.
  Summa cum laude
  Advisor: Professor Michael C. Leopold

Honors and Awards

- **Rising Stars in Materials Science and Engineering,** University of Illinois Urbana-Champaign (2025)
- **Materials Research Society Graduate Student Silver Award,** MRS Spring Meeting (2025)
- **Best Student Oral Presentation Award,** MRS Fall Meeting, Diamond Symposium (2023)
- **First Place Student Presentation Award,** New Diamond and Nano Carbon Conference (2023)
- **Best Student Oral Presentation Award,** European MRS Meeting, Diamond Symposium (2023)
- **UCSB Materials Department Service Award,** Bright Horizon Global Foundation (2022)
- **NSF Graduate Research Fellowship** (2021)
- **NDSEG Fellowship** (2021)
- **UCSB NSF Quantum Foundry Graduate Fellowship** (2021)
- **NSF GRFP Honorable Mention** (2019)
- **UC Regents Fellowship,** Materials Department, UCSB (2019)
- **David C. Evans Award for Outstanding Achievement in Scholarship,** College of Arts and Sciences, UR (2019)
- **Robert E. Loving Award for Top Graduating Student,** Department of Physics, UR (2019)
- **Goldwater Scholarship** (2018)
- **Phi Beta Kappa,** UR (2018)
- **Multiple departmental awards in Physics and Chemistry,** UR (2017–2018)

Patents

[1] **L. B. Hughes**, A. C. Jayich, S. Meynell, N. Yao, K. Mukherjee, W. Wu, E. J. Davis, "Strongly Interacting, Two-Dimensional, Dipolar Spin Ensemble in 111-Oriented Diamond for Quantum Sensing and Simulation," U.S. Patent Application Serial No. 19/647,295. Filed on April 14, 2026.

Invited Presentations

- **Materials Research Society Spring Meeting,** "Engineering interacting spin systems in diamond for quantum technologies," Apr. 2026, Honolulu, HI, U.S.A.
- **American Physical Society Global Physics Summit,** "Engineering interacting spin systems in diamond for quantum technologies," Mar. 2026, Denver, CO, U.S.A.
- **Future Leaders Seminar Series, Northwestern University Materials Department,** "Creating coherent NV centers in diamond for quantum technologies," Apr. 2024, Virtual.
- **Hasselt Diamond Workshop - SBDD XXVIII,** "Creating controlled NV systems in (100) and (111) diamond for quantum technologies," Feb. 2024, Hasselt, Belgium.
- **European Materials Research Society Meeting,** "Creating coherent spin systems in PECVD diamond for enhanced quantum sensing and simulation," Jun. 2023, Strasbourg, France.

Contributed Presentations

- **Materials Research Society Fall Meeting,** "Atomic Layer Processing for Superconducting Electronic Devices," Dec. 2026, Boston, MA, U.S.A.
- **Materials Research Society Spring Meeting,** "Creating Strongly Interacting Dipolar Spin Ensembles in Diamond for Quantum Technologies," Apr. 2025, Seattle, WA, U.S.A.
- **Materials Research Society Fall Meeting,** "Two-dimensional spin systems in PECVD-grown diamond with tunable density and long coherence for enhanced quantum sensing and simulation," Nov. 2023, Boston, MA, U.S.A.
- **Electronic Materials Conference,** "Two-Dimensional Spin Systems in PECVD-Grown Diamond with Tunable Density and Long Coherence for Enhanced Quantum Sensing and Simulation," Jun. 2023, Santa Barbara, CA, U.S.A.
- **New Diamond and Nano Carbon Conference,** "Two-dimensional spin systems in PECVD-grown diamond with tunable density and long coherence for enhanced quantum sensing and simulation," Jun. 2023, East Lansing, MI, U.S.A.

- **Hasselt Diamond Workshop - SBDD XXVI,** "Two-dimensional spin systems in CVD diamond for enhanced quantum sensing and simulation," Feb. 2022, Hasselt, Belgium.
- **Electronic Materials Conference,** "Understanding the Inhomogeneous Incorporation of Nitrogen in δ-Doped CVD Diamond Using Spatially Resolved Microanalysis," Jun. 2020, Virtual.

Teaching Interests and Experience

- **Teaching Interests**
  - **Materials Science and Engineering**: materials science, electronic properties of materials, thermodynamics, solid-state materials, quantum materials, thin-film materials, defects in solids, crystallography and diffraction
  - **Physics**: introductory physics, quantum mechanics, electricity and magnetism, solid-state physics, statistical mechanics, physics of matter/intro condensed matter
  - **Chemistry**: general chemistry, physical chemistry, quantum mechanics, materials science, nanomaterials, quantum materials, inorganic chemistry
  - **Electrical and Computer Engineering**: micro and nanofabrication, quantum computing and information, semiconductor devices, engineering quantum mechanics
- **Teaching Assistant: Introduction to Quantum Mechanics (MATRL 200Q), UCSB Materials Department** *Fall 2020*
  Teaching Assistant for Professor Anton Van der Ven
  - Graded homework, exams, and prepared weekly recitations for students to review course material and discuss problem sets.
- **Reader: Engineering Quantum Mechanics (MATRL 211B), UCSB Materials Department** *Spring 2022 and Spring 2024*
  Reader for Professor Chris Van de Walle
  - Graded homework, exams, and prepared weekly recitations for students to review course material and discuss problem sets.
  - Gave a substitute lecture on time-dependent perturbation theory.
- **Teaching Assistant: Cleanroom Training Program** *Aug. 2023 - Jan. 2024*
  Central Coast Partnership for Regional Industry-focused Micro/Nanotechnology Education, UCSB [🌐]
  - Led cohorts of students in two 40-hour programs focused on wafer fabrication processes in the cleanroom.
  - Taught hands-on skills including photolithography, metal deposition, dry and wet etching, and device inspection/characterization.
  - Served primarily URM and community college students.

Undergraduate Mentoring

- **Isaac Kantor,** UCSB (2024-2025) *Awarded the Goldwater Scholarship (2026).*
- **Ekaterina Osipova,** UCSB (2021-2025)
- **Ian McGuire,** Quantum Foundry REU (Summer 2024) *Now Ph.D. student in Physics at Brown University.*
- **Melika Dabiri,** Quantum Foundry REU (Summer 2024)
- **Haopu Yang,** UCSB (2022-2023) *Now Ph.D. student in Physics at Harvard University.*

Professional Service

- **Editorial and Peer Review**
  Reviewer for Journal of Applied Physics, Journal of Materials Chemistry C, Advanced Quantum Technologies, Frontiers in Quantum Science and Technology, Applied Research.
- **President, Treasurer, and Committee Member - Materials Scientist Association (MSA)** *Jan. 2021 - Sep. 2023*
  Materials Department, UCSB [🌐]
  - Led student organization, planned prospective graduate student recruitment events, interfaced with department leadership.
  - Goals of promoting community and professional development for students in the Materials department.
  - Wrote a proposal and received grant funding for mental health-focused programming for students in the department.
- **Outreach Programs** *Jan. 2021 - Sep. 2024*
  Quantum Foundry, Materials Research Lab, and Center for Science and Engineering Partnerships, UCSB [🌐]
  - Directed outreach project building Quantum Kits for middle school teachers. Led a team of 10 peers to develop lessons and demos.
  - Premiered the developed activities at World Quantum Day and in local middle schools.
  - Participated in volunteering and outreach programs at local elementary schools.
- **Writing Consultant** *Sep. 2021 - Nov. 2022*
  Graduate Writing Center, UCSB
  - Reviewed application essays through individual consultations with students applying for the NSF GRFP and NDSEG fellowships.
  - Provided tailored feedback as well as general strategies for successful proposal writing.
